

TraditionDATA
Coal

Tradition Energy founded the API and brokered the world's first coal derivatives in 1998. Prices are taken daily at the close of business from our Coal and Emissions desks in London and Dubai.

TraditionDATA's daily price assessments show forward swap rates for the prevailing standardised Coal contracts in Europe and Asia.

Prices are quoted in bid/offer format and are expressed as US dollars per metric ton for each product and as a differential between products.

Intraday pricing available for European traded forwards: API 2, API 4 and Newcastle.

Contract rolls are as follows:

History since 2001 (or inception for recently added contracts).

Months
Final day of the previous month

Quarters
Last day of month before quarter contract

Cals
Last business day of year

Package details:

Tradition is represented in more than 28 countries and is one of the world's largest interdealer brokers in over-the-counter financial and commodity related products. TraditionDATA provides consistent, high-quality financial market data that reflect real price interest in global OTC swaps markets, covering FX & Money Markets, Interest Rate Derivatives, Credit & Fixed Income and Energy & Commodities.

Real-time, intra-day, end-of-day and historical pricing originate from Tradition's global brokerage business. In addition to comprehensive coverage of the most liquid markets, our extensive product and geographic coverage means we can penetrate illiquid markets to provide hard-to-find prices in developing products and regions.

Data can be delivered directly from Tradition or from one of our distribution partners, which include, among others, Bloomberg, ICE, NEX and Refinitiv.
