

TraditionDATA
Environmental

Tradition Green provides expertise across the Environmental Markets, with professional brokerage services, innovative advisory and consulting, financial acquisitions and project finance across Biomass, Biofuels, Renewable Energy and Carbon Markets.

TraditionDATA's daily price assessments show futures rates for the prevailing standardised renewables and emissions swaps contracts.

Prices are quoted in bid/offer format and are expressed in EUR for UK Emissions and USD for all other products.

Contract rolls are as follows:

History since 2001 (or inception for recently added contracts).

Biofuels

Months
Final day of the month

Biofuels

Quarters
Last day of month before quarter contract

Emissions & Sustainability

Cals

Tradition is represented in more than 28 countries and is one of the world's largest interdealer brokers in over-the-counter financial and commodity related products. TraditionDATA provides consistent, high-quality financial market data that reflect real price interest in global OTC swaps markets, covering FX & Money Markets, Interest Rate Derivatives, Credit & Fixed Income and Energy & Commodities.

Real-time, intra-day, end-of-day and historical pricing originate from Tradition's global brokerage business. In addition to comprehensive coverage of the most liquid markets, our extensive product and geographic coverage means we can penetrate illiquid markets to provide hard-to-find prices in developing products and regions.

Data can be delivered directly from Tradition or from one of our distribution partners, which include, among others, Bloomberg, ICE, NEX and Refinitiv.
